# WE'RE PART OF EIT: EUROPE'S ONE-STOP SHOP FOR INNOVATION

The [European Institute of Innovation and Technology \(EIT\)](#) drives innovation by supporting entrepreneurs, innovators and students across Europe to turn their best ideas into reality. For each major societal challenge, there is an ecosystem of partners, the EIT's Innovation Communities, that creates and finds innovative solutions.

# EIT COMMUNITY REPRESENTS MAJOR INDUSTRIES AND COLLABORATES ON MULTI-THEMATIC PROJECTS

**EIT Climate-KIC** is Europe's largest public-private partnership addressing climate change through innovation to build a **net-zero-carbon economy**.

Our approach has been to focus on **systems innovation** to generate options and pathways for radical transformation.

**OUR  
VISION**

**A prosperous, inclusive, climate-resilient society with a circular net-zero emissions economy**

**OUR  
MISSION**

**To catalyse systemic change for climate action**

**OUR  
PROMISE**

**Transformation in time, through systems innovation**

# OUR THREE STRATEGIC OBJECTIVES

**Strengthening  
healthcare systems  
in Europe**

**Promoting better  
health of citizens**

**Contributing to  
a sustainable health  
economy in Europe**

# OUR MISSIONS

We operate through a mission-based approach which puts improving outcomes for people and planet as the starting point for our work.

## HEALTHIER LIVES THROUGH FOOD

We will make a material difference to quality of life by enabling more consumers to have better choices through access to affordable, healthier products and actionable information.

## A NET ZERO FOOD SYSTEM

We will scale a systems approach that enables the transition to sustainable and regenerative agriculture practices, creates new markets and opportunities for food waste and loss reduction, and empowers all stakeholders to play an active role in the circular food economy.

## REDUCING RISK FOR A FAIR & RESILIENT FOOD SYSTEM

We will improve food security and safety for consumers everywhere by enabling and establishing resilient and dependable digitally enabled food supply chains.

# Creating European innovation community

Figure 15: Performance of European and neighbouring countries' systems of innovation

Coloured columns show countries' performance in 2022, using the most recent data for 32 indicators, relative to that of the EU in 2015. The horizontal hyphens show performance in 2021, using the next most recent data, relative to that of the EU in 2015. Grey columns show countries' performance in 2015 relative to that of the EU 2015. The dashed lines show the threshold values between the performance groups, where the threshold values of 70%, 100%, and 125% have been adjusted upward to reflect the performance increase of the EU between 2015 and 2022.

THE EIT COMMUNITY STRATEGIC  
REGIONAL INNOVATIONS CLUSTER  
UNITES DIFFERENT EIT KNOWLEDGE  
AND INNOVATION COMMUNITIES  
TO CLOSE THE INNOVATION GAP  
AND NURTURE ENTREPRENEURSHIP  
IN REGIONS WHERE INNOVATION IS  
STILL GETTING UP THE SPEED.

**THE EIT REGIONAL INNOVATION  
SCHEME REGION**

# RIS Programme and activities\*

- EIT Manufacturing RIS hubs network
- Best practice classes for national authorities
- Women Innovators in Manufacturing at EIT RIS
- EIT Jumpstarter
- RIS Evolution of Research Results (EVO-R)
- RIS Inclusiveness
- Intrapreneurship Challenge
- Teaching & Learning Factories
- Programs to engage Society and Pupils
- Innovating for a Circular Economy
- Artificial Intelligence at EIT RIS
- Green and digital 'twin' transition for SMEs

\*Activities up to 2022

## 11 RIS HUBS:

Realising a powerful, pan-European innovation ecosystem for manufacturing

# EIT JUMPSTARTER: SEVEN+ THEMATIC AREAS

We trained **750+ European deep tech teams**. The next 600 are on the way.

**10%** of them **launch their start-up** during the programme, and as such **19 new start-ups** created in 2022

**150 stakeholders** from local and regional authorities engaged through joint activities

The strong collaboration of 7 EIT Communities + two additional cohorts

# MANY SUCCESSFUL START-UPS LAUNCHED

# OUR ACTIVITIES

## EDUCATION

We equip the brightest minds all over Europe and beyond, with skills and knowledge to create a sustainable food system

### EXAMPLES

[Master's in Food Systems](#)

[WE Lead Food](#)

[The Regenerative Agriculture Revolution](#)

## INNOVATION

We guide and accelerate food innovation and focus on inclusive systems innovation, enabling all people and places to benefit

### EXAMPLES

[PHENOLIVA](#)

[BREEZE](#)

[TASTE2MEAT](#)

## ENTREPRENEURSHIP

We support innovative impactful entrepreneurs and startups to deliver new food innovations and businesses across Europe

### EXAMPLES

[Hai](#)

[UFraction8](#)

[Deep Planet](#)

## PUBLIC ENGAGEMENT

We design activities to engage people so that they can become agents of change in the food system

### EXAMPLES

[Citizen Participation Forum](#)

[Food Unfolded®](#)

[Youth Mission](#)

# OUR SCOPE

# OUR IMPACT IN 2022

Discover more highlights on our [website](#).

- modular training program  
in the process of EIT Label certification
- for representatives of scientific organisations  
from Western Balkans
- that own research infrastructures in the fields of  
agri-food, health, climate or manufacturing
- capacity building and support in designing  
innovative services for companies
